About this Document

This document provides details of features and enhancements made to Sunbird platform for the release version 1.6.0, May, 2018.

Release Version

Project	Release Date	Release Version
Sunbird	May 3, 2018	V 1.6.0

New Features

No.	Feature	Project	Description
1	Downloading user search details #2518	Sunbird	Previously, the option to download the search result was available to all users. This is feature is now disabled.
2	Mandatory Subtype field in Badge Class #2570	Sunbird Platform	The field, **Subtype** (earlier optional) is now a mandatory field when creating badge class. This information is mandatory as it is used for business logic in the platform.

3.	Content Re-classification changes #43	Sunbird	When users upload new content and add the resource type as Study material:
			● A content with content type **Resource** and resource type **Study material** is added on the platform
			● Edit metadata pop-up shows Resource Type drop-down with the following values:
			   ○ Teach
			   ○ Practice
			   ○ Learn
			   ○ Test
			   ○ Play
			   ○ Read
			   ○ Experiment

			When users browse content using the Collection Editor: ● Users can select only **Collection** and **Resource** using content browser. ● **Values**, **Story** and **Worksheet** are removed from the **Filter** category drop-down.
4.	Content Copy #SB-2776	Sunbird	Users with appropriate rights can see the **Make Copy** button on **Content Detail**s page. On clicking the button, the content gets copied to the drafts folder and the user can edit it. As of now, you can copy only library content not the course content.
5.	Passing Total Number of question and total score into content ecar #548	Sunbird	Total number of questions in an assessment and total score for an assessment are maintained as .json values in the content ecar file. If old content has a quiz or question set, after saving content in the editor set the total score and total number of questions.
6.	Plugin to create custom Keyboard #978	Sunbird	Android devices show default keyboard whenever users click on an input field while answering an assessment or question set. However, while creating these assessments, the creator can choose a custom keyboard and enter possible keys for suitable answers in the **Fill in the blank** field. A plugin is created to enable the custom keyboard. It is a responsive keyboard.It is created based on user-selected keys/keyboard.Event handlers show or hide the native or custom keyboard. The plugin enables the following in the content editor and player: ● **Content Editor:** Provides a layout to enter keys to create a custom keyboard ● **Content Player:** Provides a custom keyboard based on user choice. Users choose the keyboard type, and based on the layout they can enter possible keys for an answer.

Enhancements / Technical tasks

No.	Description	Project
1	**DIAL code, unlink content #1522** Users can unlink a DIAL code from Textbook units to which they were earlier linked	Sunbird
2	**Change in the font of the images that are generated for QR code #2576** The font used in the QR code images is changed	Sunbird
3	**Creator name should be displayed as content creator # 1880** The content author's name is displayed on content view page	Sunbird
4	**Content metadata tagging and classification #2777** Users can select the resource type (based on the purpose) from one of the following: ● Teach ● Practice ● Learn ● Test ● Play ● Read ● Experiment when creating a resource (content). When searching content, users can filter using resource types. Earlier there were 26 resource type instead of seven.	Sunbird
5	**Enhancement to Content Review and Publish #2766** Reviewer workflow has been modified to include the following: ● List of parameters which reviewers have to verify before publishing content. These parameters are customisable ● Only after parameters are verified, the **Publish** button is enabled ● The **Publish** button is disabled if any of the checkboxes are unmarked ● After the content is published, a success message is displayed ● If the content does not meet the parameters or review guidelines, the reviewer comments on the content before rejecting it ● Reviewers can request changes to the content ● Request Changes button is enabled only after reviewers add comments and verify parameters ● Requesting changes rolls the content back to draft stage	Sunbird

	● Content creators are notified of the rejection and corresponding reason	
6	**Upload asset file size max limit: #1507** The maximum file size for assets to be uploaded is increased to 50 MB. Previously it was 20 MB.	Sunbird
7.	**Adding framework in assessment item metadata #1544** While creating an assessment, you can apply the framework to the assessment metadata. All the existing assessments with no framework is updated with the default framework.	Sunbird
8.	**Question search to include question identifier as well #1532** You can search for questions using the question identifiers associated with them.	Sunbird

Deprecated Features

Note: No features are deprecated in this release.

New and Enhanced API

Note: For details of the following APIs, refer to http://www.sunbird.org/apis/

No.	API Name	New/Enhanced APIs	API Documentation Link
1	User API	Enhanced	http://www.sunbird.org/apis/userapi/
2	Bulk upload API	Enhanced	http://www.sunbird.org/apis/bulkupload/
3	Location API	New	http://www.sunbird.org/apis/locationapi/
4	Content API	Enhanced	http://www.sunbird.org/apis/content/
5	Page management	Enhanced	http://www.sunbird.org/apis/dialapi/#tag/DIAL-APIs
6	Organization Management	Enhanced	http://www.sunbird.org/apis/orgapi/

7	Assessment API	Enhanced	http://www.sunbird.org/apis/assessmentapi/
8	DIAL API	Enhanced	http://www.sunbird.org/apis/dialapi/
9	Content API	Enhanced	http://www.sunbird.org/apis/content/

Known Issues and Suggested Solution

Note: This release has no known issues that have a viable solution or workaround

Known Gaps

The following is a feature list available in the Sunbird.

- 'Yes', 'No' are the legends used for representing the features that are 'available' or 'not available' in Sunbird respectively.

In case the feature legend is set to 'No', it implicates that the feature can be expected in future releases

Feature	Available in Sunbird
Main functionality	
Ability to share content	YES
Ability to send and receive announcements	Yes
Provide more user information (Education, Experience, Social links)	YES
See content created by the user	YES
Separation of Courses, Resources in separate areas	YES
Customization based on tenant / partner	YES
Local summarizer	NO
Multi-profiles management section	NO
Downloads management section	NO
Push notifications	1/2
Ability to share app	YES
Ability to share telemetry	YES
Ability to share user profiles	NO
Ability to interact within groups	NO

Settings section	
Language configuration	YES
Data usage configuration	YES
Device tagging (program tags)	NO
Storing content on SD card instead of device	NO
Device details sharing (+app version)	YES
Privacy policy and terms of service	YES
Download management	
Ability to download individual contents	YES
Ability to download all contents of a collection (at once)	YES
Ability to download all contents of a textbook (at once)	YES
Ability to migrate content from internal to external memory and vice-versa	NO
Ability to delete and share content in bulk	NO
Ability to view items in download queue	NO
Content Usage	
Ability to play ECML content	YES
Ability to play MP4 (/video files) content	YES
Ability to play HTML content	YES
Ability to view courses	Yes
Ability to play YouTube content	YES
Ability to play PDF content	YES
Ability to flag content	YES
Ability to rate content and give feedback	YES
Search on Lessons & Home page	
Search content	YES
Apply filters - basic	YES
View search result as card and list	NO
Auto-complete search string	NO
Explore domain - concept map	YES
Start creating from home & search page	NO
Preview content page	

Make copy of any content	YES
Retire / Delete your content	YES
Collaborate on a content	NO
Comment on content	NO
Download content from preview page on web	NO
Content history log	NO
Add to collection from preview page	NO
Like content	NO
View content statistics - Rating, Performance, Assessment	NO
Suggest changes in content details (metadata suggestions)	NO
Lesson requests	NO
Blog	NO
Groups	NO
Partners	NO
Resources > Domains	NO
Resources > Word Duniya	NO
Resources > Questions	NO
Resources > Media Library	NO
Resources > Creators & Developers	NO
Add friends & personal messaging	NO
Notification (over email)	NO
Notification (on website)	NO
Support	NO
Upload template & plugins	NO
Create course	YES
Create lesson plan	YES
Review page with ability to publish or request changes	YES
Flag review	YES
Flag review using reasons & comments to communicate	NO
Locking content for other editors / reviewers	NO
CMS Capabilities	NO

Google & Facebook Login	NO

Issue Tracker

Issue Number	Description	Status	Project
https://project-sunbird. atlassian.net/browse/SB-2922	**API** document has incorrect organisation parameter for Add user to organisation	Resolved	Sunbird Portal
https://project-sunbird. atlassian.net/browse/SB-111	Not able to select '**Technology**' under concept	Resolved	Sunbird Portal
